

Fabmetek GLOBAL

General Capabilities Overview

Complete Network
Experienced Reliable Resources

Fabmetek GLOBAL

Established in 2012, with a wide range of services to Industrial markets

- Precision Machining
- Part Manufacturing
- Rapid Prototyping
- Part and Material Sourcing
- Logistics (Domestic and International)
- Engineering and Drafting Services
- Project Management
- Inventory Management
- Assembly and Packaging
- Customer Witness Testing

Fabmetek GLOBAL

Fabmetek provide products, equipment and services to a broad range of markets with focus on the following industries:

Hydraulics

Automotive

Ag-Con Equipment

Industrial

Plumbing

Medical

Appliances

Recreational Vehicles

Wind Power

Aerospace

Marine

Heavy Vehicle

Fabmetek GLOBAL

Manufacturing Services Include:

- Precision Alloy Machining
- Precision Composite Machining
- Industrial Product Fabrication
- Injection Moulding
- Painting and Finish Coats
- Metal Surface Plating
- Sandblasting
- Design & Drafting Services
- Metal Hardening
- Plasma & Flame Cutting
- Welding Services
- Packaging
- and much more...

Fabmetek GLOBAL

Product Sales Include:

- Pole Line Hardware
- Capacitors
- Trays, Ties and Wire Ways
- Wire and Cable
- Meters
- Apparatus
- Electrical Safety
- Breakers and Fuses
- Enclosures
- Industrial Fittings
- Automation
- and much more...

Fabmetek GLOBAL

Fabrication Capabilities:

- Storage, Chemical and Vacuum Tanks
- Frame & Support Structures
- Transport Vessels
- Pressure Vessels (ASME)
- Platforms, Cat Walks and Stairs
- Custom Controls, Storage and Relay Cabinets
- Industrial Machinery and Specialized Equipment
- Steel Towers
- Metal Hardening
- Caged ladders
- Rolled Plate Components
- And Much More.....

Fabmetek GLOBAL

Precision Machining Capabilities:

- Pneumatic Pistons, Valves and Controls
- Hydraulic Pistons, Valves and Controls
- Aircraft Instrument Panels
- Gears, Sprockets and Splined Shafts
- Electrical Connectors and Conductive Rods
- Couplings, Fittings and Adapters
- Manifold Blocks
- Gear Boxes and Transmission Housings
- Plates, Covers and Spacers
- And Much More.....

Fabmetek GLOBAL

Composite Machining and Product Capabilities:

- Push or Pull Rods
- Bushings, stand offs and Insulators
- Rings and Spacers
- Gears, Sprockets and Splined Shafts
- Non-Conductive Electrical Components
- Injection Moulded Electrical Components
- Couplings, Fittings and Adapters
- Gaskets
- Medical, Mining and Waste Tubes (1" to 72")
- Frac and Mining Products
- And Much More.....

Fabmetek GLOBAL

Materials:

- Carbon Steel
- Stainless Steel
- Aluminum
- Copper
- Plastics
- Composites

Finishes:

- Painted
- Powder Coat
- Chemical
- Etched
- Primed
- Clear Coat
- Galvanized

Fabmetek GLOBAL

Vision / Quality Statement:

Our vision is to be the leading manufacturer and manufacturers' representative of manufactured industrial equipment and electrical utility products; while being recognized as setting the highest industry standard in quality and services.

Mission Statement:

Fabmetek is dedicated to delivering quality products, engineered solutions and services that contribute to improving reliability. Innovation is driven through controlled processes, cutting-edge technology and highly skilled personnel. Customer value is achieved by providing superior products, exceptional customer service and ease of doing business. Our core values are sustained using an ethical business model that includes team work, dedication, training, safety and advancement in technology that serves industry, while maintaining a commitment to being environmentally responsible.
